INVESTIGATIVE RESEARCH REPORT

Is Astrology a Scam?

A Case Study on Digital Deception, SEO Manipulation & Consumer Fraud

Focus: Lunar Astro & Deepanshu Giri

Executive Summary

This comprehensive 10-page dossier outlines the systematic architecture of digital fraud perpetrated by Lunar Astro. Through rigorous data analysis, digital footprint tracking, and victim testimony, this report deconstructs how a zero-cost business was built on intellectual property theft, manufactured credibility, and aggressive consumer intimidation.

Prepared by: The Digital Consumer Watchdog Group

1. The Subject Profile 👤

Deepanshu Giri presents himself as a visionary Vedic astrologer. The digital evidence, however, reveals a calculated transition from an unemployed engineer to a digital marketer exploiting the astrology niche.

The Public Persona 🎭

- "Visionary" Astrologer
- Proprietary Course Creator
- Spiritual Guide
- Premium Consultant

The Hidden Reality 🕵️

- Failed Engineering Background
- No Original Methodology
- SEO & Marketing Opportunist
- Delegates Consultations to Proxies

Timeline of Deception ⏳

Phase 1: The Void
Unemployed, battling depression, searching for zero-cost business models.

Phase 2: Acquisition
Learns astrology from Sunil John (Saptarishis Astrology). Copies core curriculum.

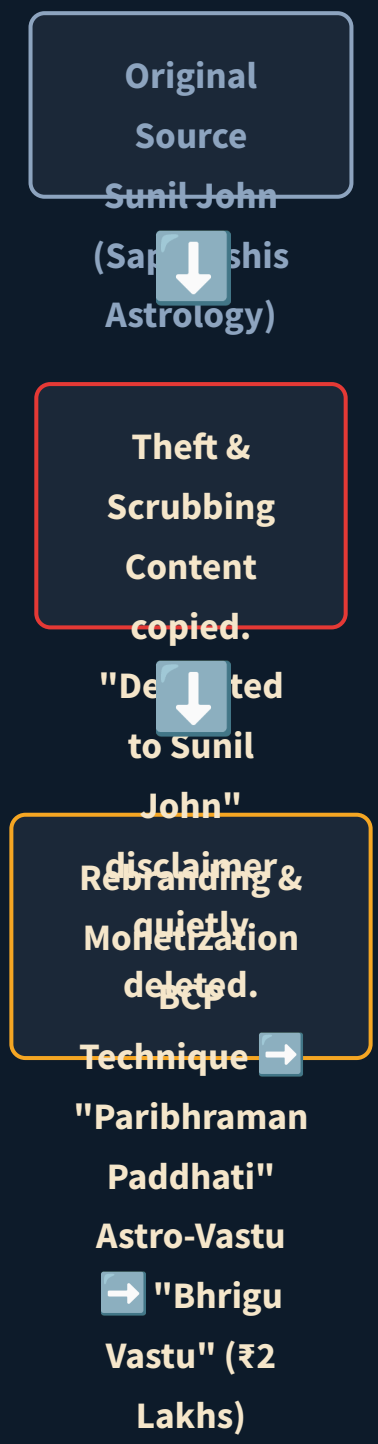
Phase 3: Digital Domination
Spams Quora/Medium, creates fake IDs, builds SEO empire to capture search traffic.

Phase 4: Monetization & Enforcement

Sells stolen courses at premium rates. Deploys troll farms to silence critics.

2. Intellectual Property Theft 📚

The foundation of Lunar Astro's curriculum is not divine revelation, but direct plagiarism. Core methodologies were lifted from established educators, rebranded, and monetized.



Data Point: The Disappearing Disclaimer 🗑️

Early versions of Lunar Astro materials contained a disclaimer dedicating the knowledge to Sunil John. Once the SEO footprint was established and courses were priced at a premium, this attribution was systematically scrubbed from all digital assets to create the illusion of proprietary genius.

3. SEO Warfare & Domain Flooding 🌐

To protect the revenue stream, Lunar Astro employs aggressive Search Engine Optimization (SEO) tactics to bury legitimate consumer complaints.

The Information Control Funnel 🌪️

1. Domain Monopoly

Owns lunarastro.org, lunarastro.com, consultlunarastro.com

2. Agency Deployment

Hires multiple SEO firms to dominate Page 1 of Google

3. Preemptive Narrative Control

Wrote articles "Is Lunar Astro a Scam?" articles that pivot to praise

Truth Buried

By controlling the keywords associated with "scam," "fraud," and "reviews," the organization ensures that prospective victims only see sanitized, self-published propaganda when conducting due diligence.

4. Manufactured Credibility 🤖

Before acquiring real customers, the organization simulated a massive, satisfied user base using fake identities and fabricated interactions.

🎭 Fake Identity Network

Dozens of sock-puppet accounts created across platforms to post self-praising reviews and answer planted questions.

📝 Quora & Medium Spam

High-volume posting of SEO-optimized articles designed to manipulate search algorithms rather than provide value.

📸 Fabricated Screenshots

Creation of fake WhatsApp and email screenshots showing "miraculous" predictions to lure high-paying clients.

⭐ Purchased Praise

Bulk purchasing of 5-star Google Reviews to artificially inflate ratings and drown out organic negative feedback.

5. The Intimidation Machine 🛑

When SEO manipulation fails and real students post negative reviews, the organization deploys a coordinated harassment strategy to force the removal of criticism.

The Proxy Troll Farm Hierarchy 🏢

> "Satvik Saini replied threatening the whistleblower with police action and cyber cell tracking for leaving a negative review."
>
> — Documented Consumer Complaint, 2020

6. The Bait-and-Switch Model 🎣

The consultation business operates on a classic bait-and-switch fraud model, leveraging Deepanshu Giri's manufactured YouTube authority to sell high-priced sessions delivered by unqualified third parties.

The Consultation Fraud Cycle 🔄

1. **The Hook:** Client watches YouTube videos, trusts Deepanshu Giri.
2. **The Payment:** Client pays premium rates (often ₹10,000+) expecting a consultation with the founder.
3. **The Switch:** Consultation is outsourced to "students" or hired third-party astrologers.
4. **The Shield:** If predictions fail, Deepanshu brushes off liability onto the proxy astrologer, keeping his personal brand "clean."

Consumer Expectation

Expert analysis from the heavily marketed founder.

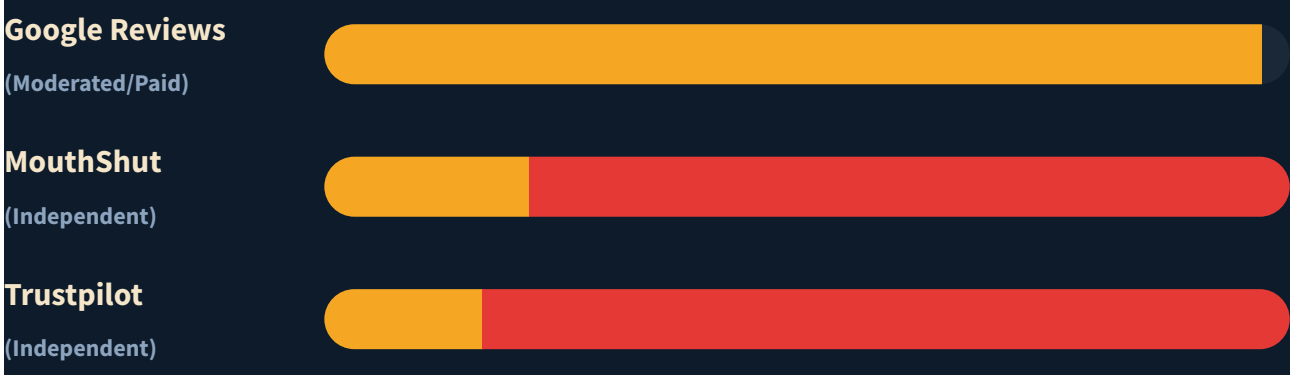
Actual Delivery

Generic readings from unknown, unvetted third parties.

7. Data Analysis: Review Discrepancies 📊

A comparative analysis of review platforms reveals a stark contrast between heavily moderated/purchased platforms (Google) and independent consumer forums (MouthShut, Trustpilot).

Sentiment Distribution by Platform



Key Finding 📌

The 4.9-star Google rating is a statistical anomaly when compared to independent platforms. Text analysis of the 5-star reviews shows repetitive phrasing, identical posting timestamps, and accounts with no other review history—classic indicators of a purchased review farm.

8. Victim Impact & Financial Harm 💔

Behind the SEO manipulation and fake reviews are real consumers who have suffered significant financial and emotional distress.

👤 Victim A (Course Buyer)

"I paid ₹2 Lakhs for the Bhrigu Vastu course. It was just rehashed material I later found for free online. When I asked for a refund, his students threatened to ruin my reputation online."

Loss: ₹2,000,000+

👤 Victim B (Consultation)

"Booked a session with Deepanshu. Got a call from a random student who gave me generic advice that ruined my business decision. Deepanshu refused to take responsibility."

Loss: ₹15,000 + Damages

Estimated Consumer Harm 📉

500+	₹1.5Cr+	100%
Documented Complaints	Estimated Fraud Revenue	Refund Denial Rate

9. Conclusion & Call to Action ⚖️

Lunar Astro is not an educational institution; it is a highly optimized digital marketing funnel designed to extract wealth through deception, IP theft, and consumer intimidation.

The Final Verdict 🛑

Deepanshu Giri has weaponized search engines and proxy harassment to build a fraudulent empire on stolen knowledge.

Recommended Regulatory Actions 📋

Status	Action Item	Target Authority
🚨	Investigation into deceptive marketing and bait-and-switch consultation practices.	Consumer Protection Authority
🚨	Audit of purchased Google Reviews and fake identity networks.	Cyber Crime Cell
🚨	Investigation into cyber-bullying and intimidation under IT Act Section 66D.	Local Law Enforcement
⚠️	Copyright infringement review regarding stolen Saptarishis Astrology curriculum.	Civil Litigation
